

PLAYSTATION®2 ACHIEVES CUMULATIVE WORLDWIDE SHIPMENT OF 40 MILLION UNITS

Tokyo, September 19, 2002 – Sony Computer Entertainment Inc. (SCEI) announced today that cumulative worldwide shipments of its PlayStation®2 computer entertainment system reached 40 million units on September 17, 2002. Since its launch in Japan on March 4, 2000, PlayStation 2 has been steadily increasing its sales all over the world and this remarkable achievement of 40 million units comes only 4 months and a half after the 30 millionth mark reached on May 5, 2002. Towards the peak-selling season, shipment of PlayStation 2 is on track for each market in Japan, North America, Europe and Asia.

Shipment of 40 million units within 2 years and 6 months since launch is 2.3 times more in volume compared to that of the original PlayStation® during the same period after launch, and 14 months faster in penetration speed. To meet the active worldwide demand of year-end and new year peak-selling season, SCEI plans to increase monthly production and shipment in September to over 3 million units. According to market demands, SCEI will control the production and shipment of PlayStation 2 and allocate appropriate quantity to each territory.

Cumulative shipment of PlayStation 2 software titles has now reached over 200 million units and more than 1000 attractive software titles are expected to be released worldwide by the end of fiscal year 2002.

With the introduction of “PlayStation BB”, a new platform connecting PlayStation 2 to the networks, in May 2002 in Japan and the launch of Network Adapter for PlayStation 2 in North America on August 27, 2002 together with 5 online titles, new joy and experience have now become available on PlayStation 2. Following “Final Fantasy XI” by Square Co.,
